A little about Spenst Bros.

"We're a farm family that owns and operates a pizza production facility, retail store, and meat processing plant in Winkler, Manitoba, Canada.

Our business began in 2003, as a direct result of the US border closing to Canadian cattle imports. When the beef market collapsed, we decided to open a meat and sausage kitchen in Winkler, across from Superstore. A small pizza kitchen was added almost as an afterthought. In this kitchen, a new idea was born to bring "Food the way Mom makes it" to the public.

The beef we use is raised on our family farm, without the use of steroids or hormones. We feed our livestock corn silage, milled corn and barley, alfalfa, hay and straw, most of which is also grown on our farm.

Frozen pizza has become a large part of what we do. We make the pizza crust, the sauce, and all the meats that top our pizzas. Because we produce our own beef and make our own sausages and pizza toppings, we're able to consistently maintain a high standard of quality."

See Reverse side for order form

If you have any questions or would like to help with the distribution of the pizza please contact ccharter@retsd.mb.ca
