Dear Parents and Guardians,

We are excited to share that Kildonan-East Collegiate will be implementing the new science curriculum and the new English Language Arts (ELA) curriculum developed by Manitoba Education and Early Childhood Learning during the 2026-2027 school year. Both new curricula aim to enhance our students' learning experiences and better prepare them for future opportunities.

These new curricula incorporate innovative teaching methods, interdisciplinary approaches, and updated materials that align with the Manitoba Framework for Learning. Our goal is to foster the six global competencies (critical thinking, communication, collaboration, connection to self, creativity, and citizenship) among students, making learning more engaging and relevant. An overview of each curriculum can be found here:

Curriculum - English Program - Science | Education and Early Childhood Learning

Our school staff will be supported by Manitoba Education and River East Transcona divisional staff as they implement this change. Students will continue to be assessed on their understanding and application of concepts with opportunities to demonstrate their learning in a variety of ways. There will be some changes to the report card to reflect some of the curriculum changes. Teachers and students will be happy to discuss the learning during parent teacher conferences.

We believe that these new curricula will significantly benefit our students, and we look forward to partnering with you throughout this process.

Thank you for your continued support and engagement.

Sincerely,

A handwritten signature in black ink, appearing to read 'M. Millman'.

M. Millman

Principal
