## PARENTAL INFORMED CONSENT FOR OUT OF SCHOOL ACTIVITIES IN THE LOCAL COMMUNITY 2025-2026

Dear Parent/Guardian,

The purpose of this letter is to inform you about some of the out-of-school activities or events in the local school community in which your child will participate during the course of this year. Your signature at the bottom of this form confirms that you are aware of the information provided in this letter.

The River East Transcona School Division and the staff of Collège Miles Macdonell Collegiate recognize that valuable and unique learning can take place outside of the school building. We are therefore encouraged to make use of the resources of the local community to meet curriculum goals.

During the course of the school year, student groups will engage in activities within the local community that take them out of the school building. These activities may include but are not limited to activities, events and/or field trips such as: the YMCA-YWCA, bowling alleys, elementary schools, etc.

The risk of injury exists in all student activity. However, due to the very nature of some activities, the risk of injury may increase. The safety and well-being of students is a prime concern and every effort is made to minimize the foreseeable risks inherent in any activity.

While participating in school activities, which take them into the community, it is expected that students will conduct themselves appropriately during all aspects of schooling.

If, for some reason, your child will not be participating in activities of this nature, please let us know.

I / We understand and agree that this is a part of the school program. I/We also understand that as a result of participating in this program that the participant is expected to follow the school procedures and code of conduct and that any deviations from these may result in consequences from the school administration.

I / We declare having read and understood the above INFORMED CONSENT AGREEMENT in its entirety and hereby consent to participate being aware of all the foregoing.

**Parental Informed Consent:** Before your child may participate in any local community activities, this signed consent form must be received at the school.

## What is sTeam?

Science (s) and technology (T) interpreted through engineering (e) and the arts (a), all based in mathematical (m) elements, providing a lens to look at the world around us in meaningful, connected ways. sTeam is designed to provide innovative programming that will:

- Focus on community building, self-awareness, and resiliency
- Provide opportunities for high-potential careers with multiple paths
- Provide opportunities for a wide range of students through skill-building
- Increase awareness/skills regarding career pathways
- Partner with industry, post-secondary institutions, and government
- Be project-based, inquiry-driven, and sTeam-focused
- Build in purposeful mentorship opportunities with related industries

## Why sTeam?

sTeam provides students an opportunity, through project-based inquiry, to fulfil the Grade 10 credit requirements of ELA, Science, and Visual Arts. Students are the driving factor in their learning, choosing the topics and issues that connect with them. The sTeam teachers facilitate their learning by helping them connect to the curriculum and the community, organize their thoughts, and clarify the design process. Throughout the learning, students will develop skills in collaboration, critical thinking, creativity, communication, character, and citizenship.

## What type of student would enjoy sTeam?

Learners who appreciate hands-on, interdisciplinary curriculum experiences combined with flexible pacing that allows time to explore and learn through a variety of digital platforms. sTeam learners will connect to the community in powerful, unique ways that will inspire a pursuit of deeper knowledge. Students who flourish in sTeam will:

- Enjoy exploring learning through science, technology, engineering, arts, and math
- Have a keen interest in wanting to understand how things work and like to build, create, or design things
- Enjoy learning through inquiry, experimentation, and reflection
- See the importance in being self-motivated and like to learn independently, as well as in collaborative groups
- Demonstrate a commitment to learning and exploring new ideas
- Enjoy co-operating with peers for group projects and collaborative learning explorations
- Thrive in challenging and creative academic environments
- Contribute to a positive and respectful classroom and school community
- Be open and interested in sharing and celebrating learning
- Benefit from connections with industry partners in exploring career pathway options

We ask that if you have an interest in having your child be considered for sTeam, please provide the requested information on the final page of this package. This group will be scheduled together as a class for a full morning or afternoon of one semester. Interest or experience with the computer sciences would be an asset. Consideration will be given to ensure that access to sTeam represents the diversity that makes up our school community.

**Completed sTeam submissions (see next page) should be submitted with the registration package.** Should you have any questions for clarification, please be sure to contact the school office.

# TECHNICAL VOCATIONAL INTENSIVE PROGRAMS

## EXPRESSION OF INTEREST

### **What are technical vocational intensive programs?**

Students who are currently in Grade 10 are invited to apply for a position in one of the technical vocational intensive programs. These programs run for two years (Grades 11 and 12) and involve students attending either Kildonan-East Collegiate or Murdoch MacKay Collegiate for one semester in each of the two years. Each semester, students will take four technical vocational courses in order to complete their technical vocational diploma.

The technical vocational intensive programs allow students from across River East Transcona access to technical vocational education starting at the Grade 11 level. Students remain connected to their community school while having access to specialized training and equipment that's only available at the two technical vocational schools in RETSD. Kildonan-East and Murdoch MacKay will work with the student's home school to ensure that courses required for graduation can be completed. Students will graduate from their home school pending the completion of provincial graduation requirements. Placement at one of the schools will be based on space and scheduling considerations.

### **Why technical vocational education?**

Skilled trade and technology careers are important to the well-being of our communities and are an excellent career path for many young people. Embarking on a career in the skilled trades is great for individuals who like to think creatively, solve problems, and work actively within a hands-on environment.

Students interested in a technical vocational intensive program should be:

- Interested in considering a career in the trades
- Self-motivated
- Able to maintain focus on a single subject/topic for longer blocks of time
- Able to arrange for transportation to the designated technical vocational school
