CAREERS

I don't know what I want to do!

- It is okay to be unsure as to what you want to do in the future.
- It is okay to change your mind as to what you want to do.
- Keep an open mind.
- Your path may change as you grow and change.
- Students tend to change their minds up to 3 times in university as to what they want to major in.

Selecting a Career Path

Career

- Career paths evolve

Explore

- Explore who you are
 - What are your strengths?

Discover

- Discover what you like & dislike

Researching Your Future Career

Get Some Experience

Volunteer, intern, become an apprentice, join a club, try out for a team, or work part-time in your fields of interest! The only way to find out what you are good at is to get out there and try!

Network

Use networking techniques to find out more about work possibilities. Ask people you know about their work or similar lines of work. Ask people you know to refer you to people they know in occupations that interest you.

Conduct Information Interviews

Talk to people about their work. You might consider making some “cold calls” to arrange short meetings with people you’ve never met but may have the information you need.

Career Exploration

myBlueprint

- Explore career options through surveys, descriptions and videos
- These surveys will suggest career paths that may suit you, which you can then research further on the website.
- Office 365: use you student username & password [myBlueprint](#)

UM Career Planning Resources:

[Career planning](#) | [Career Services](#) | [University of Manitoba \(umanitoba.ca\)](#)

UW Career Services:

<https://www.uwinnipeg.ca/career-services/career-planning/index.html>

Ask yourself the following questions:

- What do people in this line of work do day-to-day?
- What are the usual working conditions (atmosphere, hours, etc.)?
- What are the pros and cons of this work?
- What self-management, transferable, and technical skills are required?
- What type of education or training is required? What training level do most people have?
- Where is the required training offered? How long does it take? How much does it cost?
- Are there additional training/educational opportunities that are not required but may help you succeed in this job?
- Are there any special physical, legal or social requirements?
- What are the future employment prospects? Will this type of work still be needed in 5 years?
- What is the typical salary range for this type of work? Consider salaries for people beginning in the field and for more experienced workers.
- Do you have to belong to a professional association or a union to do this work?

Labour Market Trends

Let's Talk about Labour Market Trends

It is important to have a career that you enjoy, and that coincides with your interests and values as an individual. It is equally important to know what the potential for growth is in your chosen career, and what the outlook for employment opportunities are in your region. Some good questions to consider when looking at different occupations are:

- Is employment growth expected to be strong?
 - What do future retirement levels look like? (moderate to high means there will be more job openings!)
 - What levels of unemployment have been reported recently?
 - If there is a higher demand for an occupation you wish to pursue in a different region, would you consider moving?

Let's Talk about Labour Market Trends

It is important to have a career that you enjoy, and that coincides with your interests and values as an individual. It is equally important to know what the potential for growth is in your chosen career, and what the outlook for employment opportunities are in your region. Some good questions to consider when looking at different occupations are:

- Is employment growth expected to be strong?
- What do future retirement levels look like? (moderate to high means there will be more job openings!)
- What levels of unemployment have been reported recently?
- If there is a higher demand for an occupation you wish to pursue in a different region, would you consider moving?

Labour Market Trends

Use the **Canadian Job Bank** website (<http://www.jobbank.gc.ca>) to explore careers and job market trends. Go to the top menu bar to see what you can search. Two helpful categories are “wages”, to see how a prospective career generally pays in each province, and “outlook”, which considers how many people are retiring and how many new job openings are expected in each field to give you an idea of how likely you are to get hired!

Manitoba Career Prospects

Manitoba Career Prospects allows you see what types of careers are available, check out salary ranges, industry associations, employers, and read about people who are already working in the area. Visit: <http://manitobacareerprospects.ca/133/students>

The World of Work

Finding a Job

It's always a good idea to look on specific company websites if you know where you want to work. Hand in resumes at places you want to work, and they will generally keep them on file until they are hiring again.

Specialized Training: Colleges, Trade Schools, & Continuing Education

Do you want to fast-track your career, practice a hands-on trade or work full-time while training for a new career?

Then these programs are for you!

In specialized training programs, all areas of study are directly related to the career for which you are training.

Students gain hands-on, experiential knowledge to train for a specific career in a short period of time.

Before
you
choose a
program,
consider:

Program Length: Programs can range from a few weeks to two years in length.

Program Cost: Depends on the length and institute. Private institutes charge more.

Co-op/Work Experience placements: These can lead to full-time employment.

Accreditation/Employment

Opportunity: Does the certificate or diploma you plan to obtain allow you to work in Manitoba?

Specialized Training: Colleges & Trade Schools

Apprenticeship Manitoba

Why consider becoming an apprentice?

There are over 55 trade programs in Manitoba.

Being an apprentice fast-tracks you into Red River College Polytech

Most trades offer **great salaries**, and you get to **earn while you learn** and begin your post-training life with little to no debt.

If you complete all your training, you will be able to write an exam that certifies you to work anywhere in Canada, called a red seal exam.

Apprenticeship Manitoba

How do you become an apprentice?

You must find a professional in the field you're interested in that is willing to train you. Once you find someone to take you on as an apprentice, you and your employer fill out an application form, which can be found at:

Province of Manitoba | aesi - Apprenticeship Manitoba (gov.mb.ca)

Then you start working, earning money and hours toward your Level 1 certification! Most trades require about 1800 hours of experience per level and have between 2 and 4 levels.

Winnipeg Police Service

The Winnipeg Police Force looks at several things including physical, medical and psychological assessments, in-depth background checks, and educational background.

Education to prepare you for applying to the WPS: - Study Law and Criminology at a university

North West Law Enforcement Academy <http://www.northwestlaw.ca/>

Note that no education/training/experience guarantees you a spot on the Winnipeg Police Service. It is a lengthy and competitive application process.

University Application Timeline

APPLY (October to March)

- Have your MET # with you. Can be found on your report card.
- Use PERSONAL email, not your SCHOOL email.
- Self-report grades.
- Pay the application fee and submit.
- Submit supporting documents when requested by the Admissions Office (through the application portal)
- Apply for scholarships and awards (when available)

Self-Reporting Grades

Self-reporting grades is part of the admission process.

- **Final Grades** – marks for completed courses
- **Predicted Grades** – marks you believe you will attain by the end of the course (predict based on previous marks or speak to teacher!)

Next Steps

- You will receive an **email** confirming your application was received and is being processed. Be patient! This process can take several weeks depending on when you apply.
- Check the confirmation email you receive after applying for admission to retrieve your **user ID and password**
- Log into your **student portal** where you will have access to more information

Transcripts

- Mid-Term & Final marks are submitted to Manitoba universities by our School Division - students do not need to submit a transcript (if you apply by the deadline date)
 - April: First Semester final grades & Second Semester mid-term grades
 - June: Final grades
- **IMPORTANT:** Conditional offers and Entrance Scholarship offers are based on April transcript. Final transcript is reviewed to ensure marks are maintained. Scholarship offers may be re-assessed.

Final Steps

- **University Prep**
 - In May/June the universities will start preparing you for next steps and how to register for courses
- **Course registration** will take place in July

Acceptance

- You can expect to receive your official admission decision after they receive your interim grades sometime in May or early June (some programs vary)
- **Accept Your Offer**
 - Accept your offer and claim your entrance scholarship (if applicable) through your student portal

English Language Requirement

For international students and new Canadians:

- **University of Manitoba:**

1 credit of English 40S > minimum 75% AND 3 years in a Canadian high school with minimum of 5 credits per year to be exempt from writing English Proficiency Test

- **University of Winnipeg:**

1 credit of English 40S > minimum 70% OR 3 years in a Canadian high school to be exempt from writing English Proficiency Test

NOTE

Even if you are not an International student or a New Canadian student, you may receive an email from the university asking for proof of meeting the English requirement. Don't panic! Your transcript will show the length of time you have been in Canada.

Going to University or College
Outside of Manitoba?

Things to Consider

Check admission requirements and deadlines early! Many universities require out-of-province students to apply earlier than local students.

On average, going to university in another province will cost students \$10,000 - \$20,000 more per year. Often, people wait until their Master's degree (after Bachelor's degree) to study out of province.

- Applying to the **University of British Columbia?** Applicants must fill out a personal profile that outlines their community involvement: [Personal Profile](#)
- Applying to any **Universities in Ontario (Toronto, York, Waterloo, Western, etc.)?**
 - Applications must go through the Ontario Universities Application Centre (OUAC) using form 105 D (ideal completion date of OUAC form: Nov. 1st): [Application Guide](#)
 - Many math and science-based programs will require applicants to take Advanced Math Calculus in addition to Pre-Calculus. Check admission requirements early!
- If you are applying to university in the United States you may need to write the SAT or ACT early in your grade 12 year (check with your university of choice, some are no longer requiring entrance exams).

Funding Your Education

4 ways to scholarships . . .

- **External Scholarships**
 - open to all students, requires searching
- **Internal Scholarships**
 - open to CMMC students only
- **Entrance Scholarships:**
 - university based with application
- **Application-Based Scholarships:**
 - given out by universities & colleges

Scholarships, Awards & Bursaries

How do I find scholarships?

- 1) Make sure you apply to university in time to be eligible for automatic entrance scholarships! Do a thorough search of all the scholarships, awards and bursaries available at the university/college you are planning to attend.
- 2) Check out the list on the CMMC Scholarship Blog: <http://cmmcscholarships.blogspot.com/>
- 3) Make an account on a scholarship search site like:
 - <https://scholartree.ca/>
 - <https://www.scholarshipscanada.com/>
 - <https://yconic.com/>
 - [Indspire Home - Indspire](#)
- 4) Fill out the CMMC Awards form that you will get in the second semester! (Spring)

Tips For Applying For Awards, Scholarships & Bursaries

- Get started early.
- Be accurate and complete.
- Be personal and specific.
- Proofread your application.
- Choose your references carefully.
- Give your references time (min. 2 weeks)
- Thank your references!
- Keep your contact information current.
- Check your email account frequently.
- Continue trying.
- Watch for Deadlines!
- Ask for help if needed.

Part-Time Employment

- Design your post-secondary schedule to accommodate part-time work
 - School part-time
 - Work part-time

MANITOBA STUDENT AID

<https://www.edu.gov.mb.ca/msa/>

Canada-Manitoba Integrated Student Aid

Manitoba Student Aid administers provincial and federal financial assistance for post-secondary studies in the form of loans, grants and bursaries for eligible applicants.

You can apply for **both** federal & provincial assistance in one application, directly with Manitoba Student Aid.

Benefits of Student Aid

- Not just a loan. There are many **non-repayable** grants & bursaries that they will automatically assess your eligibility for
- 0% interest & interest-free repayment
- No payments required while you are a full-time student
- Repayment assistance available if you are experiencing financial hardships

Eligibility

To be eligible you must:

- Be a Canadian citizen, permanent resident or protected person as defined under Canadian Immigration Legislation
- Demonstrate financial need
- Be enrolled in a degree, diploma or certificate program offered by a designated post-secondary educational institution
- Maintain satisfactory grades

How Much Funding Can I Get?

The amount you can receive depends on several factors, including:

- Your province or territory of residence
- Your family income
- If you have dependents
- Your tuition fees and living expenses
- If you have a disability

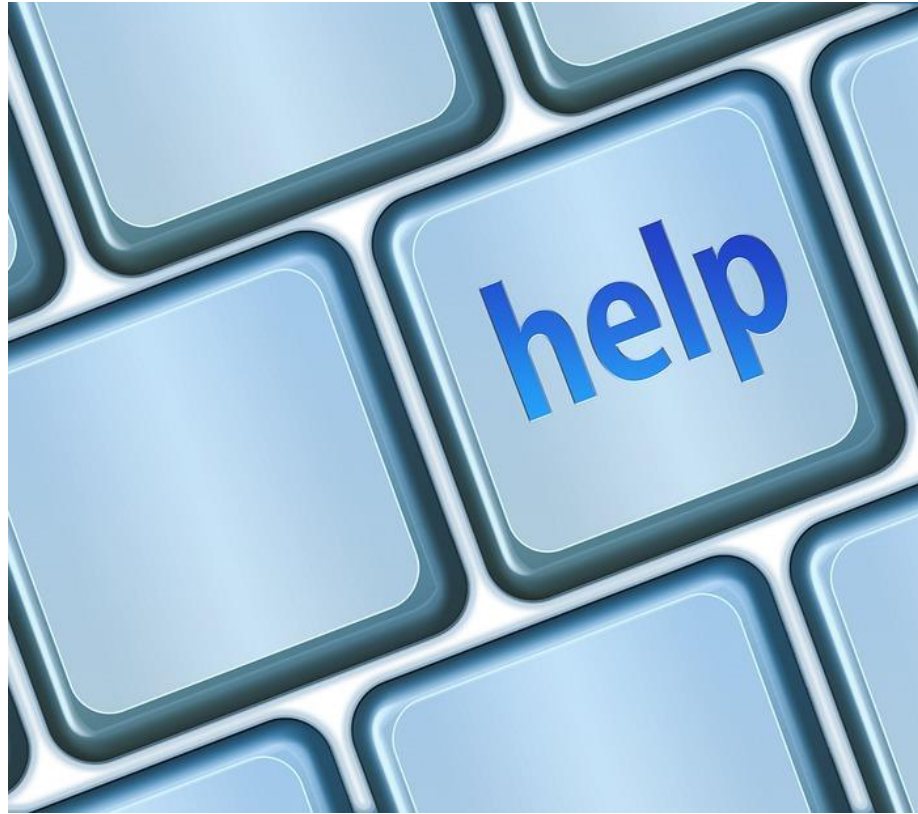

Watch a Helpful Video

The National Student Loan Service Centre offers the Government Student Loans and Grants Orientation Webinar:

- https://players.brightcove.net/2456793370001/Hkv5PUW4G_default/index.html?videoId=5859470801001

This 17-minute presentation will provide a thorough overview of the process and include such topics as how to apply, what loans and grants are, the stages of a student loan, repayment information and how to use your National Student Loan account.

We recommend that all first-time borrowers watch this video.

GAP YEAR

Taking a GAP Year

A gap year is a good option for graduates who are unsure or unexcited about returning to school. It gives you a chance to explore different options and to figure out who you are and what you enjoy.

Pros of taking a year off

- Take time to figure out what/if you would like to continue studying
- Make and save money
- Explore your options
- Gain life, travel, work, and/or volunteer experience
- Take a breather from school
- Time to sample possible career paths

Cons of taking a year off

- Easy to relax and waste a year
- Will miss out on some scholarship opportunities
- Things learned in high school will no longer be fresh in your memory
- Potential lack of motivation when the year is up
- Make sure your time off is productive!
- Make your gap year a combo of all the things you would like to try, the options are endless!

If you do take a GAP year...

- Make sure your time off is productive!
- Make your gap year a combo of all the things you would like to try, the options are endless!

Travel Opportunities for Students

Travelling when you are young has many advantages.

First, your schedule is more flexible.

And secondly, with an International Student Identity Card (ISIC) or International Youth Travel Card (IYTC), you can get great deals on hostels, tours, entrance fees to tourist attractions and historical sites, Eurorail passes, and more!

See your local travel agency or check online for more details: www.isic.org

There are many traveling options; short term, long term, with a program, on your own, or with a friend. Do some research; think about what type of experience you are looking for and talk to people you trust.

The background of the slide is a light gray rectangle with four silver-colored circular fasteners at the corners, mounted on a brown wood-grain surface. The gray area contains faint, stylized illustrations: three question marks of varying sizes, three glowing lightbulbs with radiating lines, and two hands in white gloves with gray sleeves, one on the left and one on the right, palms facing each other.
