

EMPLOYEE TECHNOLOGY USE

Access to the River East Transcona School Division technology services plays a vital role in employment in an organization devoted to teaching and learning in today's world. Employee access to computer information technology is an integral part of their employment functions. The division, in cooperation with employees, will work to build an understanding of the importance of digital citizenship and the role that computer information technology can play in education and the workforce.

River East Transcona School Division promotes the use of its instructional technology services to improve the digital literacy of its users. Every user is expected to adhere to this policy, as well as the accompanying regulation. By accessing instructional technology tools, employees consent to follow the expectations contained in the policy and regulation.
