Cheyenne Wilder is a 16 year old legally blind teenager. She was at the doctor for a check-up on her pneumonia with her step mom and had to get the prescription for antibiotics. On the way to the mall Cheyenne falls asleep with a blanket over top of her in the backseat of the car. She told her mom to leave the keys in the car in case she got cold, so that she could turn the heat on. When her mom's inside the store a car thief named Griffin sees the keys in the car. So he decides to hop in and steal it. While Cheyenne is kidnapped she several struggles to deal with; her pneumonia, having being blind, and worrying about whether she's going to make it out alive.
