***Skier/snowboarder classification***

All students must be classified according to the following plan. These stages are consistent with the operations of all C.W.S.A.A. and N.S.A.A. Resorts in North America. The classifications must appear on the Parent Consent Form and be checked off by the parents. Parents should understand that these classifications will be verified by a professional skier/snowboarder prior to the student skiing/boarding.

**Novice:** The student has never skied/boarded before.

**Beginner:** The student has skied/boarded a few times before and has experienced and maintained control on a number of novice hills. He/she can stop and turn with some success. This classification is indicated by a green circle.

**Intermediate:** The student has skied/boarded on many occasions and has experienced a variety of hills and different ski/board areas. He/she can turn and stop under control using recognized formal techniques. This classification is indicated by a blue square.

**Advanced:** The student is an experienced and competent skier/boarder. He/she has received formal instruction, knows and understands the Alpine Responsibility Code and can demonstrate ability at an advanced level. Such students can be called upon to assist in the program. This classification is indicated by a black diamond.

**Freestyle terrain:** Freestyle terrain may contain jumps, hits, ramps, embankments, fun boxes, jibs, rails, half pipes, quarter pipes, snow cross, freestyle bump terrain and other constructed or natural terrain features. Freestyle skill involves maintaining control on the ground and in the air. Only students with an advanced rating will be allowed to use Terrain Parks or Halfpipes. This classification is shown by an orange oval, which indicates "Varied Freestyle Terrain."

***Under no circumstances will a student be given an upgrade to the next level without an evaluation by and approval from a qualified instructor.***
