

SCHOOL FUNDRAISING

River East Transcona School Division recognizes that schools may wish to supplement their budgets for school-related (special projects, school activities, charitable causes) student activities through public fundraising.

Fundraising may support school programs generally and may also be used to help defray individual student costs for things such as trip expenses, camps or other extra-curricular opportunities.

Fundraising will include consultation with school community councils, parent advisory councils, staff and, where appropriate, the student council.

The division is supportive of fundraising activities taken by schools and also understands the need to set limits and provide appropriate guidelines.
