K-4 PHYSICAL EDUCATION/HEALTH EDUCATION

Parental Option for Potentially Sensitive Content

The Kindergarten to Grade 4 Physical Education/Health Curriculum contains potentially sensitive outcomes in the following areas:

- Personal Safety
- Substance Use and Abuse Prevention
- Human Sexuality

The curriculum is developmentally and age appropriate. For example, at K-4 Personal Safety helps children identify safety rules for child protection and how to avoid dangerous situations. Substance Use and Abuse Prevention focuses on identifying helpful and harmful substances and how to safely and properly take prescription medications. Human Sexuality identifies basic changes in growth and development such as changes to teeth, height and clothing size.

Manitoba Education has mandated all potentially sensitive outcomes. Parents have the option to choose school based delivery or an alternate delivery for this potentially sensitive content. Alternate delivery of the potentially sensitive content becomes the responsibility of the parent (i.e. home, professional counselling) where the content is in conflict with family, religious or cultural values.

Please complete the form on the reverse indicating either school based delivery or alternate delivery of the potentially sensitive content for your child. Please note that the permission form is a multi-year form, covering Kindergarten to Grade 4. Choice of school based delivery or alternate delivery can be changed at any time. Please notify the school, in writing, to request a change.

If you require more information, Parent Handbooks and curriculum materials are available at the school. You can also contact the classroom teacher or the school administration.
