

TECHNICAL VOCATIONAL INTENSIVE PROGRAMS

EXPRESSION OF INTEREST

What are technical vocational intensive programs?

Students who are currently in Grade 10 are invited to apply for a position in one of the Technical Vocational Intensive Programs. These programs run for two years (Grades 11 and 12) and involve students attending either Kildonan-East Collegiate or Murdoch MacKay Collegiate for one semester in each of the two years. In each semester, students will take four vocational courses to complete their technical vocational diploma.

The Technical Vocational Intensive Programs allow students from across River East Transcona School Division access to technical vocational education, starting at the Grade 11 level. Students remain connected to their community school while having access to specialized training and equipment that is only available at the two vocational schools in RETSD. Kildonan-East and Murdoch MacKay will work with the student's home school to ensure that courses required for graduation can be completed. Students will graduate from their home school, pending the completion of provincial graduation requirements. Placement at one of the schools will be based on space and scheduling considerations.

Why technical vocational education?

Skilled trade and technology careers are important to the well-being of our communities and are an excellent career path for many young people. Embarking on a career in the skilled trades is great for those individuals who like to think creatively, solve problems, and work actively within a hands-on environment.

Students interested in the Technical Vocational Intensive Programs should be:

- Interested in considering a career the vocations
- Self-motivated
- Able to maintain focus on a single subject/topic for longer blocks of time
- Able to arrange transportation to the designated Technical Vocational Intensive Program school, unless you are an obligated student for transportation
- Attending regularly
- Maintaining credits for on track graduation

Please note that some technical vocational programs have fewer spots than others. While we try to accommodate as many applications as possible, application is not a guarantee of acceptance. Once spots are filled, we will not be revisiting applications.
