

The Face on the Milk Carton by Caroline B. Cooney.

Janie is happy with her life. She has loving parents, an adorable boyfriend, and a group of friends she can joke around with. Secretly she longs for a little adventure and maybe a name a little more exciting than Janie Johnson. She gets more than she bargained for when she sees her face in a missing person's ad on the back of a milk carton. Soon she starts to question everything and everyone she loves. But her loving parents couldn't possibly be capable of kidnapping...could they? She finds herself unsure as to what to do the more she learns the more she can feel herself drifting away from everything she loves, and she isn't so sure things can ever be the same.

Fans of mystery and suspense will enjoy every page of this read.
