

BOOK REVIEW

Name of Book: Wonders of the Deep Author: Life Magazine

Reviewer: Noah C

Genre: Non- Fiction

The book was amazing. The pictures where amazing. It would be so hard for a photographer to get those pictures. The book is about all the things you would see in the ocean. I'm surprised that the animals didn't attack each other. The paragraphs were long and had so much detail but as soon as I started reading them I couldn't stop reading them. Seeing that far under water and learning about all the plant life and animals is amazing.

Recommendation:

I recommend this book for people who like under water pictures and there was some interesting information about Pearl Harbour.

Over all this was an amazing book!!!!!!!!!!

Rating of book: 4 ½ out of 5 stars.
